

# Bioenable Iris One

BioEnable launches Single eye Iris Scanner called "Bioenable Iris one".

Bioenable Iris one is the first Iris scanner to be designed & manufactured by an Indian company. With this product we have joined the select list of global companies who have their own Iris scanning technology. Bioenable Iris one was designed and developed with over 2 years of research. Earlier BioEnable launched BioScan10 an Slap Fingerprint scanner certified by STQC india for UID Aadhaar project. BioScan 10 was first Slap fingerprint scanner by an Indian company and was developed in collaboration with an European OEM manufacturer. BioScan Iris one has been developed by BioEnable without any collaboration or support from existing iris manufacturer.

## Specifications

Item	Specifications
Capture	Force Capture, The device has a force capture mode.
Capture Distance	<=2Cm.
Interface	USB 2.0
Image Resolution	Output is ISO standard 640*480 pixels ,single eye, 8 bit gray-scale
Power	Single USB Powered.
Device dimension	W x H x D = 7.1cm x 17.5cm x 9.5cm
Case	Attractively designed, light, easy to carry Specially designed rugged case to meet IP67 requirement.
Imaging wave length	850 nano meters
Environmental	0°C to +50°C Operating; 0% to 95% humidity, Non-condensing
Usage	Indoor; Outdoor (avoid direct sunlight and bright reflections)
Illumination	Six infrared LED's, for single eye,
Ancillary SW	Demo Application Program; SDK, Sample codes in C#.Net
HOST OS	MS Windows family 32bit/64bit

## Features

- High resolution Iris images
- Easy to operate design
- Works with multiple Iris Software
- Development Kits
- USB interface, USB Powered
- IR illumination

## Applications

- Secure Identity management
- Secure Logon for Desktop/Web
- Civil ID applications
- Child Identification
- UID Aadhaar Authentication
